Natural loose snow and rollerballs, Beehive and Bridger

Beehive Basin
Northern Madison
11/25/2022
Code
L-N-R1-D1
Elevation
9700
Aspect
S
Latitude
45.35080
Longitude
-111.40000
Notes

Obs from Beehive 11/25: "Lots of moving snow on south facing aspects. most of the chutes to the [lookers] right of the (4th of July couloir) had slid, it looked like it was mostly limited releases from sun warmed rocks."

GNFAC Forecaster at Bridger on 11/25 saw natural rollerballs and pinwheels on steep, rocky south facing terrain. (photo).
