

Small Natural storm snow avalanches in Gallatin Canyon

Northern Madison

2/6/2020

Code

SS-N-R2-D1.5-I

Elevation

6000

Aspect Range

N-E-S-W

Notes

On the drive to Buck Ridge there were widespread 4-6" deep natural [slab](#) avalanches in the storm snow on steep slopes, road cuts and river cuts. Some broke "on the ground", where it was bare ground two days ago. This is some evidence of the upside down nature of this storm.

Number caught

0
