## all of Muddy Ridge slid, natural and rider tirggered

Buck Ridge Northern Madison 1/25/2024 Code N-R3-D2-O Elevation 9350 Aspect N Latitude 45.17190 Longitude -111.38000 Notes

Starting at  $45^{\circ}11'13.26"N / 111^{\circ}27'36.92"W$ , the NNE slope slid (likely rider caused 2 days ago). The adjacent slopes at  $45^{\circ}11'18.09"N / 111^{\circ}27'54.78"W$  further west were slightly newer perhaps the 26th or late on the 25th. Each ripped down to the ground at the crown. Severe instability was present even when cresting over the slope from the entrance through the regular access to cedar - still not broke open.
