Wind on Blackmore

Date Fri, 03/01/2024 - 12:30 Activity Skiing

Skied the meadows northeast of Blackmore today. Saw numerous loose dry slides on the way up. Didn't see any wind slabs. No whumphs or shooting cracks. SW wind was pretty strong most of the morning. HS 240cm!

Region Northern Gallatin Location (from list) Mt Blackmore Observer Name Max Mundt
